As a visitor to Texas, Royal Caribbean's Liberty of the Seas abides by all state laws. The Texas Alcohol Beverage Control (ABC) Law prohibits us from offering full bar service on embarkation day until we reach international waters. Under the law, our beverage selection on Day 1 - including for guests who have purchased a beverage package - is limited and some bars may be closed as a result. Stateroom deliveries of pre-ordered wine will be carried out Day 2. Thank you for understanding!

**SeaPass® Cash Account Limits**

Please be aware that the credit limit is \$500 for guests with cash SeaPass® accounts. Once this limit is reached, the account will be deactivated. To reactivate the account, a cash deposit must be made on the account, or a credit card must be linked to the account.

**Safety & Security**

Familiarize yourself with the safety routine onboard and your Assembly Station, which is your assigned meeting place in case of emergency. View our safety video on your stateroom television. There will be a mandatory Guest Assembly Drill at 3:45 pm.

**Please Note**

All bars and venues will be closed from 3:15 pm until the Guest Assembly Drill is completed.

**Gratuities**

A \$12.95 gratuity will be automatically added to each guest's SeaPass® account on a daily basis to be shared among dining services, Stateroom Attendants and other housekeeping services crew who work to enhance the cruise. Suite guests will see a \$15.95 daily gratuity. Guests who prepaid gratuities prior to boarding the cruise will not have a daily charge onboard. A 18% gratuity is also automatically added to beverages, mini bar and spa & salon purchases. In the unlikely event that a guest onboard being charged the daily automatic gratuity did not receive satisfactory service, the guest may request to modify the daily amount at their discretion by visiting the Guest Services desk prior to departure morning.

**Smoking Policy**

We have revised our onboard smoking policy, effective for all sailings departing on or after January 1, 2014. Under this new policy, all indoor public spaces will be smoke free, with the exception of the Casino and the Connoisseur Club on Freedom and Voyager Class ships. In the Casino, there will be designated smoking and non-smoking areas. Additionally, smoking will not be permitted in the staterooms or on stateroom balconies. Outdoor smoking areas will be designated on the port side.

**Guest Conduct Policy**

Royal Caribbean has a Guest Conduct Policy regarding safety, security, guest conduct, parental and guardian responsibility, alcohol, prohibited items, health and environment, dining areas dress code, age policies, and consequences for violating the Guest Conduct Policy. A detailed policy is available in the Guest Services Directory located in your stateroom.

**We're Sensitive!**

We kindly request not to flush anything down the toilets except for the supplied toilet paper. Items such as wet wipes, tissue paper, make-up remover wipes, cotton buds, paper towels, sanitary products, nappies etc. will clog the system. Our system is very sensitive and works on a vacuum unlike land based systems. Please do not place excessive amounts of toilet paper in the toilet bowl as this will block the toilet and cause disruption to the entire vacuum system. We appreciate your cooperation.

**Tomorrow:** We will be at sea.

### NOTICES

#### Garbage Disposal

The MARPOL Convention and domestic law generally prohibit the discharge of most forms of garbage from ships into the sea. All garbage is to be retained onboard and placed in the bins provided.

#### Important Notice to our Young Cruisers

Those guests 17 years of age and under who are not accompanied by an adult must be clear of all public areas by 1:00 am each evening unless involved in an Adventure Ocean activity / Teen activity. For further guidance please refer to the Guest Conduct Policy which can be found in the Cruise Services Directory in your stateroom.

#### Public Health Advisory:

Consuming raw or undercooked meats, poultry, seafood, shellfish, or eggs may increase your risk for foodborne illness, especially if you have certain medical conditions.

#### Helpful Health Information

Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses — such as a Norovirus that can be transferred easily through person to person contact — is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Norovirus include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a complimentary consultation and treatment if necessary.

#### Health Advisory

Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see <http://wwwnc.cdc.gov/travel/notices>]): Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin [both French and Dutch sides]), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellent to both skin and clothing. The most effective repellents are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity — in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see <http://wwwnc.cdc.gov/travel/page/avoid-bug-bites>). Mosquito repellent may be purchased in the onboard gift shop or in the medical facility.\*

### NOTICES

**Garbage Disposal**  
The MARPOL Convention and domestic law generally prohibit the discharge of most forms of garbage from ships into the sea. All garbage is to be retained onboard and placed in the bins provided.

**Agriculture Notice**  
Please be advised that guests are not permitted to bring any fruits & vegetables, seafood, meat & poultry, cut flowers or soil onboard or off the ship. Any violation of this policy may result in a fine. Thank you for your cooperation.

**Helpful Health Information**  
Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses - such as a Norovirus that can be transferred easily through person to person contact - is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a complimentary consultation and treatment if necessary.

**Health Advisory**  
Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see <http://wwwnc.cdc.gov/travel/notices>]); Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin [both French and Dutch sides]), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellent to both skin and clothing. The most effective repellents are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity - in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are traveling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see <http://wwwnc.cdc.gov/travel/page/avoid-bug-bites>). Mosquito repellent may be purchased in the onboard gift shop or in the medical facility.\*

## IMPORTANT THINGS TO KNOW TODAY

**Suggested Dress Code:** Smart Casual

### Inclement Weather Advisory

In the event the ship experiences unusual weather or sea conditions causing excessive motion, we advise you to exercise caution. Use available handrails throughout the ship and watch hands and fingers in the doorways. Also, all guests should take extra care when on open decks - there may be strong winds, and/or decks may become slippery when wet. Thank you for your attention in this important matter.

### Satellite Connection

Due to our positioning, satellite outage may occur during your cruise vacation. This will affect several services, including internet, telephone, ATM machines, TV broadcasting and daily news. We apologize for any inconvenience.

### Get on the Fast Track to a Cruise Vacation

Earn double Royal Points for all your qualifying purchases onboard when you use your Royal Caribbean International Visa credit card. Apply today and start earning Royal Points toward onboard credits, stateroom upgrades and even cruise vacations. Stop by our Cruise Sales Team's Desk on Deck 5 to complete your application.

### Attention Parents!

We love to see active kids and there are lots of things to do on board to make sure they never have to sit still for too long. We do however have age restrictions for our Fitness Center, Deck 11. Only kids aged 16 and older may use the Center and its equipment. We enforce this rule this is a hard and fast rule onboard to prevent injuries in younger children. We appreciate your support in helping us administer this policy.

### Careful What You Flush

Our waste disposal system operates using a highly sensitive vacuum system, so we kindly ask you flush nothing other than toilet paper and your waste down the toilets. Personal hygiene products, hand and bath towels, paper towels, food and other items will shut down the system, adversely affecting many areas around the ship. Thank you for your consideration.

### General Tips

Please remember that magnetic and electronic devices such as cameras, cell phones and purses or sunglasses cases with magnetic clasps will demagnetize your SeaPass® Card and you will not be able to open your stateroom door. If this does happen, please stop by the Guest Services Desk and they will print you a new one.

Please be advised that guests are not permitted to bring any fruits & vegetables, seafood, meat & poultry, cut flowers or soil onboard or off the ship. Any violation of this policy may result in a fine. Thank you for your cooperation.

**Helpful Health Information**  
Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses - such as a Norovirus that can be transferred easily through person to person contact - is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Norovirus include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a complimentary consultation and treatment if necessary.

**Health Advisory**  
Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever; In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see <http://wwwnc.cdc.gov/travel/notices>]); Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin (both French and Dutch sides)), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellent to both skin and clothing. The most effective repellents are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity - in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see <http://wwwnc.cdc.gov/travel/page/avoid-bug-bites>). Mosquito repellent may be purchased in the onboard gift shop or in the medical facility.

# CRUISE COMPASS

Liberty of the Seas®

**DAY 4** Wednesday, February 17, 2016  
 Today we are in Roatan, Honduras

### MEET THE MOST COLORFUL LOCALS IN THE WATERS OF ROATÁN

Dive shops abound in Roatán. Home to the world's second-largest coral reef, this diver's paradise is teeming with colorful marine life. Though just as colorful are all the characters that have passed through the sandy shores of this beautiful Bay Island. Roatán has a long and tangled history of Maya Indians, Spanish conquistadors, British pirates, rebel slaves and more recently, European and North American expatriots. But it's not just the underwater wonders that have lured foreigners to lay down their roots here. Roatán has a very unique cultural identity unlike anywhere else on the mainland of Honduras. Everything here has been perfectly seasoned with Caribbean flavor—from the music and local cuisine to the laidback island lifestyle. Naturally, you'll want to venture out to the reefs for some world-class snorkeling or scuba diving. On land, the beaches are beyond beautiful while the mountainous terrain is perfect for hiking. Old English forts and churches can offer an insight into the rocky colonial days. And when you're ready to kick back at a seaside restaurant, head into the West End Village.

**Garbage Disposal**  
The MARPOL Convention and domestic law generally prohibit the discharge of most forms of garbage from ships into the sea. All garbage is to be retained onboard and placed in the bins provided.

**Agriculture Notice**  
Please be advised that guests are not permitted to bring any fruits & vegetables, seafood, meat & poultry, cut flowers or soil onboard or off the ship. Any violation of this policy may result in a fine. Thank you for your cooperation.

**Helpful Health Information**  
Medical experts tell us that the best way to prevent colds, flu, or gastrointestinal illnesses - such as a Norovirus that can be transferred easily through person to person contact - is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Noroviruses include an upset stomach, vomiting and diarrhea. In fact, the only illness that is more prevalent is the common cold. Should you experience any gastrointestinal illness, please visit the ship's medical facility for a complimentary consultation and treatment if necessary.

**Health Advisory**  
Diseases Spread by Mosquito - Zika virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing [see <http://wwwnc.cdc.gov/travel/notices>]); Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin (both French and Dutch sides)), travelers are urged to take precautions to avoid mosquito bites by remaining in well-screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellent to both skin and clothing. The most effective repellents are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity - in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see <http://wwwnc.cdc.gov/travel/page/avoid-bug-bites>). Mosquito repellent may be purchased in the onboard gift shop or in the medical facility.

# CRUISE COMPASS

## Liberty of the Seas®

## DAY 5

Thursday, February 18, 2016  
Today we are in Belize City, Belize

## BELIZE CITY, THE GATEWAY TO A TROPICAL WONDERLAND OF ADVENTURE

In the 1700s, Belize City was actually founded by former pirates. When a group of British buccaners decided it was more lucrative to harvest lumber out Belize's wooded interior, they cleared the land and set up shop on the coast. With tropical hardwood in great demand, the town grew rapidly. Thousands of African slaves were brought in to float the logs and load the ships, and before long, the European population had exploded as well. The two groups and their descendants began to mix, ultimately creating the Creole culture so prevalent today. Though no longer the capital, Belize City remains at the heart of the country - its gorgeous Caribbean coastline and rich cultural life a magnet for residents and tourists alike. Home to a lush tropical rain forest and the longest barrier reef in the Western Hemisphere, it's also the gateway to adventure. From jungle treks to cave tubing to scuba diving, the opportunities are endless. And also fascinating is a tour to the ancient Mayan city of Altun Ha, once a major trading center long before the Europeans arrived.

## IMPORTANT INFORMATION: TENDER BOAT OPERATION

- We're Sensitive!**  
We kindly request not to flush anything down the toilets except for the supplied toilet paper. Items such as wet wipes, tissue paper, make-up remover wipes, cotton buds, paper towels, sanitary products, nappies etc. will clog the system. Our system is very sensitive and works on a vacuum unlike land based systems. Please do not place excessive amounts of toilet paper in the toilet bowl as this will block the toilet and cause disruption to the entire vacuum system. We appreciate your cooperation.

Save yourself the work of doing laundry once you get home. We'll take care of it for you with our Wash & Fold Laundry special.
